Sir,

Resignation from all post and membership

I've been involved in the political activities of SLMC from 2015 onwards.

In addition to the general membership, I hold the post of the member of the high command and the national organizer of the youth congress. However, being dissatisfied with the recent conduct of the members of parliament and being attracted to the policies of National Peoples Power 'NPP' I hereby tender my resignation from the general membership, the post of high command member and the post national organizer of the youth congress.

Thank You.
